

Salt Lake County Health Department  
 Medical Office  
 TB Clinic  
 Fee Proposal

As a department, we would like to charge \$25.00 for the administration of Isoniazid (INH) and/or Rifampin (RIF) medication for our TB patients. This price has been determined based off the time it takes for office and nursing staff to handle and distribute the medication. The medication cost itself is reimbursed via Utah Department of Health.

In reviewing fees from other Utah health departments, they do not currently charge an administration fee; however, the volume of patients that they treat for Latent Tuberculosis Infection (LTBI) is minimal and therefore, they do not charge for these services.

Health Department	Medication Costs	Administration Fees	Salt Lake County Administration Fee (Current)	Proposed Fee
<b>Weber-Morgan Health Dept.</b>	Covered by UDOH	\$0.00	\$15.00	\$25.00
<b>Tooele County</b>	Covered by UDOH	\$0.00	\$15.00	\$25.00
<b>Utah County</b>	Covered by UDOH	\$0.00	\$15.00	\$25.00
<b>Davis County</b>	Covered by UDOH	\$0.00	\$15.00	\$25.00
