- 3.3. Other Elected County Officials

Sheriff Rosie Rivera announced that the Offices of the United States Attorneys sent out a press release on a case that the Salt Lake County Sheriff's Metro Gang Unit participated on in 2021. The case was linked to the Mexican drug cartel, Jalisco New Generation. The main ringleader was sentenced to 240 months in federal prison. There were 34 counts of indictment, with over 25 defendants. Then, 420 pounds of methamphetamine and 50 pounds of heroin were taken off the

street. Organizations that participated in solving this case were the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), the Internal Revenue Service (IRS), the Drug Enforcement Administration (DEA), and the Salt Lake County Sheriff's Metro Gang Unit. It takes partnerships across the board to solve these types of cases, and they take a long time to get through the court system.

The Sheriff's Office also worked on another investigation with the DEA, Homeland Security Investigations (HSI), and the State Bureau of Investigations (SBI) that was linked to the cartel; and yesterday, they seized 46 pounds of fentanyl, which they believed was the largest non-interdiction fentanyl seizure in Utah. That case is still ongoing, but charges will be filed.

She also reviewed what each division provided.

Ms. Dorothy Adams, Director, Salt Lake County Health Department, continued the presentation of the Salt Lake County Health Department, providing an agency overview of the divisions, worksites, and workforce; and reviewing the 2024 funding sources; key programs; successes; challenges, including not having enough resources to keep up with increased demand and a decrease in grant funding; and future focus and work.

Ms. Jeannie Edens, Associate Director, Behavioral Health Services

Division, delivered a PowerPoint presentation on Salt Lake County Behavioral Health Services, providing an agency overview; and reviewing key programs; successes; challenges, which included a lack of workforce capacity, a lack of affordable housing, limited capacity at the Utah State Hospital (USH), and a reduced Medicaid match, which has increased Salt Lake County's costs for services.

Mr. Tim Whalen, Director, Behavioral Health Services Division, stated keeping someone in institutional care once they were stable was contra-indicative, and because so many others were in need of and waiting for institutional care, patients who were stabilized were going to start being discharged to Assertive Community Treatment (ACT) teams until housing, such as group or boarding homes, could be put in place. With regard to a decrease in the Medicaid match, the County will be going to the Legislature this year to see if the State can provide the County with some additional funds to absorb some of its increased costs.

Ms. Kelly Colopy, Director, Human Services Department, stated housing for homeless individuals would include wraparound services.

Ms. Edens concluded the presentation, reviewing the future focus of using Medicaid dollars in carceral settings.

Mr. Whalen stated Medicaid dollars would be used for the last 90 days of incarceration for health and behavioral health services, although the County would be charged for the Medicaid match in the jail for behavioral health; and then it would bill and be reimbursed by the State.

RESOLUTION NO. 6221

A RESOLUTION OF THE SALT LAKE COUNTY COUNCIL
SUPPORTING THE ENFORCEMENT OF RESTRICTIONS ON
UNLAWFUL CAMPING AND ENDORSING SUPPORTIVE
HOMELESSNESS SOLUTIONS

WHEREAS, unlawful camping often leads to unsafe and unsanitary conditions, posing significant health risks to both individuals experiencing homelessness and the broader community, including increased exposure to diseases and environmental hazards; and

WHEREAS, unlawful camping also often leads to negative impacts to local businesses, public spaces, and residential neighborhoods, decreased property values, increased crime rates, and reduced quality of life for residents; and

WHEREAS, the presence of unlawful encampments often strains municipal resources, requiring costly and frequent clean-up efforts, law enforcement interventions, and emergency medical services; and

WHEREAS, tolerance for unlawful camping does not effectively address the root causes of homelessness, and often perpetuates a cycle of instability and recidivism among vulnerable populations; and

WHEREAS, tolerance for unlawful camping exposes homeless individuals to greater risks of violence, theft, trafficking, illness, and addiction due to lack of shelter, clean water, sanitation, and healthcare services; and

WHEREAS, Salt Lake County and municipalities within Salt Lake County

have enacted ordinances and other regulations prohibiting unauthorized camping on public and/or private property, including Salt Lake County Code of Ordinances, 2001, at § 10.36.010(K) and § 10.40.030; and

WHEREAS, the Salt Lake County Board of Health has enacted public health regulations prohibiting unlawful camping, including Salt Lake County Health Regulation No. 7, General Sanitation Regulation, at § 4.19; and

WHEREAS, the United States Supreme Court's recent decision in *City of Grants Pass, Oregon v. Johnson*, 603 U. S. _____ (2024), held that the enforcement of generally applicable laws regulating camping on public property are a constitutional exercise of local government authority; and

WHEREAS, Salt Lake County supports the enforcement of existing rules, regulations, and ordinances prohibiting unlawful camping, including Salt Lake County Ordinance and Health Department regulations; and

WHEREAS, the 2024 Utah Legislature adopted HB 298, which legislation outlined strategic measures and comprehensive approaches to effectively tackle homelessness in Utah by implementing programs that provide comprehensive support addressing the root causes of homelessness, such as mental health challenges, substance abuse, and lack of employment opportunities; and

WHEREAS, these measures implemented by the Legislature dictate that funding allocated for homeless services is tied to specific metrics and outcomes such as tracking progress in reducing homelessness, improving housing stability, and increasing access to supportive services; and

WHEREAS, these measures further require accountability and transparency through regular reporting and evaluation of homeless programs to ensure accountability and transparency, which helps in measuring the effectiveness of the programs and making necessary adjustments to improve outcomes; and

WHEREAS, Salt Lake County recognizes the critical importance of intensifying public efforts to combat drug abuse and trafficking, which often co-occur with homelessness, through enhanced law enforcement, public health initiatives, and community outreach; and

WHEREAS, Salt Lake County further recognizes that expanding access to mental health and substance use disorder treatment is essential to providing the necessary support for individuals to overcome addiction, achieve stability, and transition out of homelessness;

NOW, THEREFORE, be it resolved by the Salt Lake County Council, acting as the legislative body for Salt Lake County:

- 1) The Council recognizes that unlawful camping poses potentially significant risks to the public health, safety, and welfare of the community. Salt Lake County does not support, condone, or tolerate unlawful camping within the county, including the establishment of any encampment on private or public property not licensed and zoned for overnight camping.
- 2) The Council acknowledges the role of county government to aid communities in removing hazardous materials that pose serious health risks to the community. Salt Lake County supports the enforcement of duly adopted rules, regulations, and ordinances prohibiting unlawful camping, including Salt Lake County Ordinance and Health Department regulations, consistent with United States Supreme Court precedent. Salt Lake County encourages local municipalities within the county to adopt and enforce policies defining and prohibiting unlawful camping.
- 3) The Council reaffirms its commitment to addressing homelessness through comprehensive and compassionate strategies that include rehabilitation resources, mental health and substance use disorder treatment, job training, and supportive housing in alignment with the requirements of Utah law, including HB 298.
- 4) The Council reaffirms its commitment to collaborate with the County Mayor and other elected officials, other local, state, and federal partners, as well as non-profit organizations and community stakeholders, to develop and implement effective programs and services that reduce homelessness and recidivism.
- 5) The Council is committed to increase resources aimed at removing drugs from our communities and supporting mental health and substance use disorder treatment treatment as part of its comprehensive approach to homelessness. The Council invites the Utah Legislature to prioritize funding for drug enforcement officers, recognizing the critical impact of drug removal

on reducing homelessness.

6) The Council encourages other local governments and county residents to support these efforts by volunteering, donating, and advocating for policies that promote sustainable solutions to homelessness.

A motion was made by Council Member Alvord, seconded by Council Member Bradley, that this agenda item be approved. The motion carried by a unanimous vote.

6.3 Consideration of a New Countywide Policy 2021, "Records Management and Archives Policy and Standards," that Includes New Standards and Guidelines [24-1885](#)

Attachments: [Staff Report](#)
[RMA Policies, Standards and Guideline](#)
[Council Powerpoint 07112024](#)

Presenters: Megan Hillyard, SLCo Department Director, Administrative Services. Maren Slaugh, SLCo Division Director, Records Management and Archives. (Approx. 4:05PM, 15 Min.)

Discussion/Direction

Ms. Megan Hillyard stated agenda items 6.3 and 6.4 are combined. These policies were part of an effort from a couple of years ago to condense the Government Records Access and Management Act (GRAMA) policies and ordinance, since much of that material was procedural in nature and belonged in standards.

Ms. Maren Slaugh, Director, Records Management and Archives, delivered a PowerPoint presentation entitled Records Management and Archives Policy + Countywide Standard Proposal for the Executive

Coordination Committee, reviewing an overview; a recap of the condensed GRAMA policies; the Records and Information Management Committee; proposed policy changes; an amendment to Countywide Policy 2010 - Public Access to respond to HB 266, updating section 63G-2-401 (Chief Administrative Officer (CAOA) appeal) allowing the requester the right to request mediation with the Government Records Ombudsman prior to appealing the State Records Committee or Third District Court; a proposed new policy: Policy 2021 - Records management and Archives Policy and Standards Highlights; proposed Records Management and Archives (RMA) standards; Standard 2021-1 Classification and Retention Scheduling Highlights; Standard 2021-2 Transferring and Storing Records at the Records Center Highlights; Standard 2021-3 Transferring and Storing Records at the Archives Highlights; Standard 2021-4 Disposal of Records Standard Highlights; and new RMA guideline.

Council Member Granato asked if records were retained of an employee posting something on social media relating to County business.

Ms. Slauch stated if the employee posted something on their personal social media account on their own time, but from a County-issued cell phone or computer, it would depend on the nature of the post. If the employee posted during work hours on a personal social media site, a request could be made to obtain the personal media post. If the employee posted on a County social media site, a requester could have access to that.

Mr. Mitchell Park, Legal Counsel, Council Office, stated a record is defined very specifically in the GRAMA statute. If someone posted a comment on their personal social media account about something that occurred in the County workplace, it could be classified as a record, particularly if it originated on a County-owned system or device.

A motion was made by Council Member Bradshaw, seconded by Council Member Granato, that this agenda item be approved. The motion carried by a unanimous vote.
