Dear Director Rebecca Dilg,

The Salt Lake County Council met on March 25, 2025 in our regular weekly meeting and voted to express our non-exclusive support for Comcast Communications Management, LLC (Comcast) in their application to participate in Utah's Broadband, Equity, Access, and Deployment (BEAD) program.

It is our understanding that the Utah State Broadband Office has identified 826 underserved areas of Salt Lake County. We believe that the efforts of applicants like Comcast will provide opportunities for these residents and businesses to have access to reliable high-speed internet which will improve their quality of life, enhance their educational opportunities, and foster economic growth within Salt Lake County.

We believe that these proposed improvements will greatly benefit not only Salt Lake County, but the economy of the entire state of Utah, and urge you to approve their application for funding for proposed projects in Salt Lake County.

Sincerely,

Dea Theodore, Salt Lake County Council Chair
