Unique qualifications and/or perspectives you would bring to a Board or Commission: I have worked for the Salt Lake County Health Department for 31 years, in a variety of public health programs. During this time, I have had the opportunity to be involved in the development and implementation of laws and regulations, program development, strategic planning and fiscal management and believe these skills will assist this newly formed committee in determining its course and the resources that are available to reach identified goals. The County Weed Program is part of the Health Department and under my direct supervision, so I am very involved in assisting the program manager work towards addressing existing noxious weeds and devising ways to prevent their spread and the immersion of additional noxious species in our County.
