BUILD THE FUTURE

I AM STEM

FALL 2023  
MEDIA KIT

## JOIN THE EVENT

### ● **WHAT IS STEM FEST?**

One of the best ways to engage students in science, technology, engineering and math is through hands-on activities. Utah STEM Fest does just that and much more!

Utah STEM Fest allows companies to showcase STEM careers and their support for education and local communities. This free event offers students dynamic opportunities to engage with interactive experiences. Industry representatives open up a world of exciting STEM career possibilities. Students will have the valuable chance to begin networking with some of Utah's top employers.

## SEPTEMBER 19-20, 2023

STEM Fest is a two-day event that will take place **September 19-20** at the Mountain America Expo Center. Join in digitally or in-person to support the STEM field.

### **FAMILY NIGHT:**

STEM FEST isn't only for students, it is open to the public on Family Night, **September 19** from 4-8pm at the Mountain America Expo Center. Bring your whole family and experience all that STEM has to offer in education and careers. This event is free and registration is not required.

# EVENT SPONSORSHIPS

## JOIN US IN-PERSON & DIGITALLY

In addition to our STEM Build the Future print magazine and interactive website, UTAH STEM FEST is back with an in-person experience for students and educators. We will take extra precautions to keep everyone safe for in-person learning.

# BE A PART OF STEM

## STUDENTS

STEM Fest allows kids to get out of the classroom and meet the people behind some of today's coolest innovations.

### What we offer

- Interactive exhibitions
- Opportunities to discover new things
- Connections with educators and innovators
- Hands-on experiences

## EDUCATORS

STEM Fest provides the opportunity for students to take concepts explained everyday in the classroom and apply that knowledge to real life.

### What we offer

- Hands-on projects
- STEM-related networking opportunities
- Exposure to STEM-based careers
- A unique teaching experience

## BUSINESSES

Be at the forefront of showcasing STEM-based careers to thousands of students, parents, and teachers. If your business is STEM related, this is a must-attend event.

### What we offer

- Diversified and engaged 4th-10th graders
- Multiple booth sizes
- The ability to meet tomorrow's innovators
- Two days of exposure

## BY 2024

STEM jobs will grow

# 26%

▲ 31% Computing

All other jobs will grow

# 19%

▲ 19% Engineering

▲ 25% Advanced manufacturing

A typical computer programmer with only some college education earns more than a typical non-STEM worker with a bachelor's degree—\$76,000 vs. \$73,000.
