The justification for reconditioning this compactor:

- Complete rebuild of the engine, drivetrain, hydraulic system for 25% of the cost of purchasing a new compactor. New is estimated to cost \$1.3 million this estimate is \$350k
- Comes with a new 3 year/5000 hour warranty (same as a new piece of equipment).
- It will take 3-4 months to complete. Ordering a new compactor is 1.75 – 2 years out on delivery due to supply chain.
- Compaction is the number one goal in landfilling operations.
- This compactor is not currently operational.
