Which Boards would you like to apply for?

Clark Planetarium Advisory Board: Submitted

Referred by:

Qualifications

Please tell us about yourself.

I am an outdoor nature enthusiast and my hobbies include astronomy, hiking, skiing, mountain biking, any kind of exploration of the natural world. I enjoy these activities with my wife, kids, four grandkids, friends, and neighbors. This has included visiting the planetarium and the star parties they have sponsored (which I love!). I volunteer at two non-profits... one that focuses on poverty alleviation in developing nations and the other focuses on air and water sustainability issues in northern Utah.

Why are you interested in serving on a board or commission?

I would like to see the understanding and enthusiasm for astronomy and physics grow in our Salt Lake Community, as a means to promote a greater appreciation for the natural world.

What education, work experience, or volunteer experience do you have that applies to the board you are applying for?

I have recently retired from a 30-year career leading organizations at Silicon Valley software companies. My career was dedicated to working to enable public service organizations with technology improvements and innovation, including governments, educational institutions, health care providers, and non-profits. I currently volunteer at two non-profit organizations, CHOICE Humanitarian and LDS Earth Stewardship. Previously I help the volunteer role of Utah Government Relations Director for the Healthcare Information and Management Systems Society (HiMSS), where I led efforts to engage elected officials and political appointees on topics related to improving digital health care practices. I also volunteered as a refugee relocation counselor for the Utah Catholic Charities Refugee Relocation program.

What unique perspectives could you bring to the board?

I believe I can bring enthusiasm and experience for education, to innovative ideas to better promote the mission of the Planetarium in Salt Lake County, particularly with K-12 schools and universities. Much of my professional and non-profit work has been to bring together non-profit, for-profit, and public services organizations to further the delivery of public services in their communities. I have experience engaging governmental officials to promote support for causes and organizations that I believe in.
