Qualifications

Please tell us about yourself.

I was born and raised in Salt Lake City (Millcreek/Holladay). After a brief stint in New York for school, my wife and I have lived in District 6 since 2018. I am naturally curious and get excited by the pursuit of authenticity. I am a father to two daughters and have recently found a passion for long-distance running.

Why are you interested in serving on a board or commission?

We all should be lifelong learners who commit to learning about our true selves. However, knowledge of self requires service to others. I hope to help give back to the city and the park that has given so much to me.

What education, work experience, or volunteer experience do you have that applies to the board you are applying for?

I hold a joint JD/MBA degree and boast over a decade of experience as an attorney, making me well-equipped to contribute significantly to the Sugar House Park Authority Board of Trustees. Throughout my legal career, I have focused extensively on contract negotiation, drafting, and litigation, navigating the intricacies of legal matters that often arise in complex business environments. One of my core strengths lies in problem-solving and risk mitigation. I have encountered and successfully addressed numerous challenges throughout my career, consistently demonstrating an ability to foresee potential issues and implement strategies to mitigate risks. This proactive approach aligns seamlessly with the responsibilities of the board, where the ability to reduce risk and avoid liability is a key concern.

What unique perspectives could you bring to the board?

I would bring my curiosity - I would ask questions and seek to understand before advocating for any action. I also would bring a commitment to community engagement and collaboration. I believe that involving the community in decision-making processes is crucial for the success and sustainability of public spaces like Sugar House Park. Moreover, I bring a passion for preserving green spaces and fostering recreational activities. As a lifelong user of the park (and seeing how those uses have changed over the years), I understand the importance of balancing the park's natural beauty with the needs of the community, and I am dedicated to ensuring that Sugar House Park remains a cherished and well-maintained asset for current and future generations.
