[www.DirtLocker.com](http://www.DirtLocker.com)

Dirt Locker® is pleased to partner with Wheeler Historic Farm on a sloped erosion control gardening project on the back side of the activity barn. The purpose of this project is to create an aesthetic terrace garden that locks in moisture to promote a healthy plant root structure.

**We will include in our donation to the WHEELER HISTORIC FARM the following items:**

- 50 large brown Dirt Lockers® valued at \$18.95 per piece (\$947.50 total)
- 40 18"L J hooks valued at \$4.25 per piece (\$170 total)
- 2 Dirt Locker® representatives to help with installation valued at (\$500)
- professional film crew valued at \$3500 (including professional photos for Wheeler Farm to use at their discretion)

**Total Value = \$5,117.50**

We ask that these terms are agreed upon in return:

- An installation date prior to Oct 11th (latest Oct 24th) so we can take advantage of fall planting and winter harvest. This would include clearing of the hillside, soil delivery of 3 cubic yards of soil, 4 extra laborers to help with installation day, and cold-hardy winter veggies for planting for early winter harvest (will likely need "plankets" or similar to protect veggies from frost).
- A meeting with your irrigation team/representative (would be great to have one representative on the installation day)
- A meeting with your horticulture team/representative (would be great to have one representative on the installation day)
- If you end up using any of the professional photos we provide to you on your website, we ask that you kindly tag our website in the photo credit

## ABOUT US

Dirt Locker® is dedicated to designing and manufacturing environmentally positive products used in agriculture and landscaping that save water, stop erosion, and protect plants, all while made domestically from recycled plastic.

We keep costs low, because the cost of erosion is steep!

- EASY TO DIY
- DURABLE MATERIAL
- NO MICROPLASTICS
- 100% RECYCLED HDPE
- GROW FOOD AT HOME
- AFFORDABLE EROSION CONTROL

## HOW TO INSTALL

- 01 Get an instant quote on [dirlocker.com/estimator](http://dirlocker.com/estimator)
- 02 Create a layout plan and pre-install the system on a flat surface
- 03 Install with J-hooks and backfill with soil for easy planting

## BEFORE & AFTER

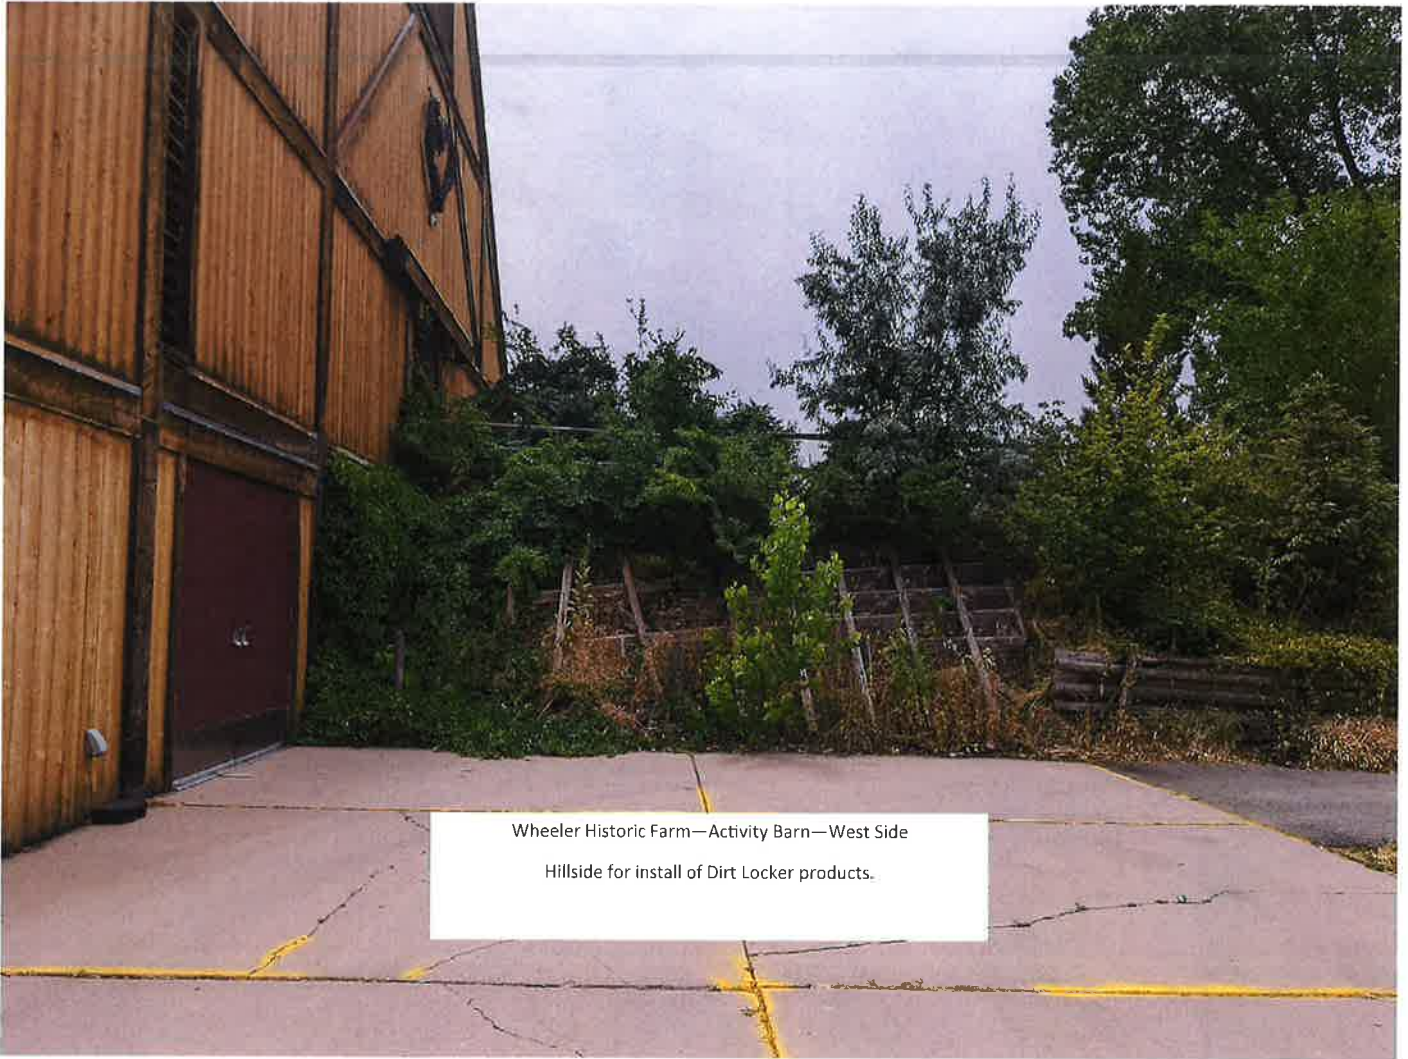

## RECYCLING, RE-IMAGINED

Each Dirt Locker® recycles the equivalent of 13+ plastic milk jugs! We prevent 100,000+ milk jugs from entering landfills each month.

HDPE is a durable plastic that is FDA approved for food-safe containers. No worries about microplastics since the Dirt Lockers® do not move around once they are locked in place!

Wheeler Historic Farm—Activity Barn—West Side  
Hillside for install of Dirt Locker products.
