Ok, great. I can do that. Evan, can you let me know the vehicle value and I'll get started on the budget adjustment?

Thanks,
Amy

Sorry I had that backwards!

But yes, it would need a budget adjustment for the transfer. Once that adjustment is approved, our office will do the journal entry to record the transfer.

Hi Shanell,

Thank you for reviewing this. I am fine with processing it as a fund transfer. How do I go about requesting the fund transfer? Do I need to complete a budget adjustment form to initiate it?

Just a clarification, it will be a transfer from fund 250-4600, Flood Control to fund 735-4500, Public Works. The vehicle currently belongs to fund 735 and will be transferred to fund 250.

Thanks,
Amy

Evan and Amy,

Ben and I were able to discuss the "transfer of use" of the vehicle from Flood control to PW engineering that you brought up. We were able to talk through possible use of interfund revenue and expense and fund balance transfers, but landed on fund balance transfer as the preferred method. If you see a benefit of using the exp and revenue we are open to discussing that with you, but for right now our recommendation would be to do a fund balance transfer from public works enterprise fund to flood control for the value of the vehicle.

Let us know if you have any additional questions or thoughts.

Best,
