

SL COUNTY BUDGET REQUEST / ADJUSTMENT FORM

Executive Summary

Reference No: YE01	For Fiscal Year: 2018
Requesting Organization: 53060000 EMP SERV RES-WORK	Date of Request: 25-Sep-18
Budget Adjust Type(s): Appropriation Unit Shift	Ongoing (Y or N): Y
	If Yes, next year's CF impact: \$0
	Net FTE Change: 0.00

Description and Justification:

Employee Training Program Adjustment: This budget adjustment would allow Salt Lake County risk management to implement a training program using our current SABA / Skillssoft contracts to assist in complying with OSHA requirements and to provide and track employee training to better control claim costs. This request lowers the budget for worker's compensation wage and medical claims and moves it to pay for this new training from the operations sector. The expectation with this adjustment is that with better training and tracking, improvements will be made over time that will increase workplace safety and lower claim costs. As an employer, the County is required by OSHA and other regulatory standards to provide its employees with a safe and healthful environment. A big part of that is providing safety training that is targeted to the different work environments. This budget adjustment provides the funds that will allow the County to improve the training process as well as improve the tracking process of those who are receiving the training. The new system will also alleviate most of the internal cost of providing training and allow for seamless and accurate management and reporting of the required safety training programs across the organization.
