1	26968	SLCo Pre-Apprenticeship Program - NEW	 ARPA funding to provide a gateway for local residents – focusing on women, people of color, low-income individuals, and transitioning veterans –to gain access to Building Trades' registered apprenticeship programs. It is vital that Salt Lake County has a readily available and highly trained workforce to meet the skilled workforce demand created by our robust economy. County residents deserve an opportunity to have a middle-class career in construction and we believe such careers can begin with a person's completion of an apprenticeship readiness program (Pre-Apprenticeship Program) and ultimately, their enrolling in a multi-year Registered Apprenticeship training program in one of the many construction crafts. Based on national best practices, the SLCo Pre-Apprenticeship Program would contract with at least one community-based organization to provide soft-skill training, logistical support, and other wraparound services in conjunction with hard-skill training by organizations such as local Building and Trades Unions. It would target lower-income communities, women, and communities of color, boosting access to higher-paying and in-demand jobs that are vital to the Salt Lake economy. We would receive logistical support setting up the program from the National Association of Building Trades Unions and Accelerator for America, ensuring that the program is set-up well and reducing the burden on existing staff.
			Total request over 2 years is \$2,788,630 evenly divided up over 2023/2024

	Form ID	Request Title	Division Justification
2	26860	RPF: Public Finance Collaboration	Funds to provide research, technical assistance, and collaboration with municipalities in the area of public finance.
			Component #1: \$25,000 to re-establish the interactive elements of the Economic Impact Information Portal. The portal, which has remained active since the beginning of the pandemic, provides targeted support to municipalities by increasing accessibility to local data and by visualizing financial and economic indicators, like monthly sales tax disbursements and Class B & C Road funds. An interactive sales tax revenue model that was shared with us by the Utah League of Cities & Towns (and is no longer active on our site due to funding constraints at ULCT), allowed city CFOs and elected officials to enter various sales tax projection scenarios to estimate the impacts themselves which served to inform their budget proposals. ORD received positive feedback from city officials who appreciated having this information compiled and visualized in a user-friendly manner for city CFOs, city staff, elected officials, and interested residents.
			Component #2: \$170,000 to initiate and support a regional conversation supporting local governments in strengthen their revenue base; through two primary topic areas: land uses and sales taxes.
			Working with the Government Finance Officers Association, ORD will implement the following:
			Value-per acre analysis of up to three municipalities/townships in the county. We will develop a map, using a geographic information system (GIS) data, which shows the tax value per acre for up to three cities/townships in the County. These maps are a powerful demonstration of how land use decisions impact the tax base: a city/township with low value per acre will, generally, have more difficulty raising revenue than a city with a higher value per acre. Ideally, each map will cover a city/township that faces different circumstances (large population versus small, urban versus suburban, etc.
3	26867	RPF: Utah Foundation Research & Program Evaluation	Funds for a restricted contribution to the Utah Foundation to conduct research and produce a report on the efficacy of the Water Conservation & Land Use Municipal Partnership program, which received an American Rescue Plan Act (ARPA) appropriation from the County Council in June 2022. Utah Foundation was a critical independent research partner to ORD related to the Missing Middle Housing Summit in 2021 and their work in 2019 on a series of reports highlighting the importance of long-term water management in terms of sufficiency, affordability, and quality makes them an ideal independent program evaluation partner in this area.

	Form ID	Request Title	Division Justification
4	26857	RPF: Transfer to RE Division to support SLCo's Public Real Estate Asset Initiative	Funds to support the Real Estate Division's work in the County's Public Asset Initiative (PAI) program. Public real estate asset programs are becoming a more common public finance tool to help public sector organizations increase revenue without increasing taxes or debt.
			Since 2018 when an initial comprehensive inventory of County-owned parcels was completed, the Real Estate Division within the Department of Administrative Services has worked closely with other County organizations to further the County's Public Asset Initiative program. These funds would be transferred to the Division of Real Estate to be programmed by the PAI working group based on program priorities.
5	26861	RPF: National Assoc. for County Community & Economic Development Conference	Funds to host the annual conference in SLCo in 2023. The National Association for County Community and Economic Development (NACCED) was established as an affiliate of the National Association of Counties (NACo) in 1978 to develop the technical capacity of county government practitioners that administer federally-funded affordable housing, community development, and economic development programs benefiting low- and moderate-income households.
			Each year, NACCED holds its Annual Community and Economic Development and Training Conference, which offers more than 150 practitioners from across the country an opportunity to come together and discuss the nuts and bolts of running effective affordable housing, and community and economic development initiatives (including CDBG, HOME and Continuum of Care programs). The conference provides local governmental affordable housing, and community and economic development program managers and staff the chance to network with their peers; receive first-hand training, and analyze case studies of effective housing and development practices; and unparalleled opportunity to interact with local governmental practitioners and professional program-level staff of all levels.
6	850 & 268	RPF: Kem C. Gardner Policy Institute Membership	Annual Contribution. County identified as Partner in the Community, Legacy Level; recognition in KGPI collateral; ex-officio place on KGPI Advisory Board; Blog feature; VIP seating to KGPI events; Advance notice of research/products relevant to SLCo.
			Annual Collaboration. Regionally significant and/or projects with countywide impact; project scope(s) and KGPI deliverables determined at the close of the prior year and include topics like housing unit inventory, eviction data analysis related to emergency rental assistance program administration, and assessments in the areas of housing, mortgage assistance, or childcare impact on the workforce.

7	27052	Community Adoption Center and Pet Park	We are asking for a community animal services adoption center to provide regional services and offer pet resources that support no-kill sheltering. This center would be our adoption center and would also offer low-cost and free clinic resources like other county clinic-style services. It will also offer a regional park that is truly dedicated to pets which is in high demand and greatly desired by citizens and jurisdictions. This will relieve some of the challenges occurring in regional parks as this would be the premiere place for pets and draw them to this state-of-the-art location. See more details attached.
8	26110 ARPA request-Mobile Community F Program	ARPA request-Mobile Community Pet Support Program	Mayor proposing one-time \$500K for study and design only at this point. Mobile Unit and time limited support for sterilization, vaccines, pets for life program that brings services directly to the streets of Salt Lake County; helping the places, people, and pets that need it the most. This unit will also double as an adoption vehicle which will assist shelters with overpopulation. The unit can also be an instrumental tool in emergency response.
			2023 request is \$1,781,071 (mobile unit \$808,248 plus personnel & operating expenses \$972,823). 2024 request is \$1,031,193 for personnel & operating expenses. Total request is \$2,812,264 which included 13 FTEs. See more details attached.
9	27041 HLT_Utah Aids Foundation Con	HLT_Utah Aids Foundation Contribution (TI Funded)	Members of the LGBTQ+ community suffer from excess mental and physical health disparities compared to the rest of the population. There is currently no LGBTQ+ community health agency in Utah. The Utah AIDS Foundation will use this funding to renovate their building, transforming it to a space where comprehensive mental and physical healthcare will be provided to the LGBTQ+ community in Salt Lake County. Renovations are expected to be completed by the end of 2023.
			Outcomes- The Utah AIDS Foundation (UAF) provides mental healthcare to the LGBTQ+ community in Salt Lake County. The Utah AIDS Foundation provides HIV treatment.
			Indicators- Number of clients seeking mental health care served per month Number of patients receiving physical health care served per month Percentage of patients on antiretroviral treatment (ART) within 6 months of new HIV diagnosis

F	orm ID	Request Title	Division Justification
10	27042	Tenth East Senior Center Remodel	Tenth East senior center is located on Salt Lake City's east side and as a classic midcentury modern building, it is as a beloved part of that community. The building is deteriorating and requires significant updates and remodeling to ensure it remains a safe and usable hub for older adults in the surrounding area. These updates would position the location to be used during an emergency to support older adults and will enable Aging and Adult Services to continue to safely provide programming to East side older adults at a longstanding and architecturally significant location. In addition, the 10th East Senior Center would become a Cafe model style kitchen. Cafe model style kitchens currently only account for 19% of the current Senior Center kitchens, yet provide 41% of all meals being served. The type of enhanced meal offered in Cafe style centers is in high demand.
11	27050	UT Restaurant Association (Utah and SLV)	Contribution to the Utah Restaurant Association (Utah and SLV)
12	26947	Sundance contribution	Requested funds would support our programming for County residents, students, and community organizations in FY23. See attachment for details on this request.
13	26903	Downtown Security Assessment	This request is for a security project to assess all downtown county facilities from a security perspective and make recommendations regarding efficiency and augmentation of service. This project will be led by the County's Emergency Management Director, but funding is being requested through Facilities Services. We will provide critical support and input, as well as oversee central facilities services.
14	26019	ADC, Oxbow and SOB Facility Assessment	This project would fund a 3rd party company to come and conduct an updated and complete facility assessment. This would give us the ability to do an intensive building inspection and associate a realistic dollar amount to each project.
15	27053	Jail Expansion Study	Jail Expansion Study
16	27049	DA Building Security Enhancements	Mayor approved budget for Oxbow Jail study \$250,000.00 On July 9, 2020, the District Attorney building in downtown Salt Lake City was damaged in a premeditated attack by rioters. The District Attorney's Office has been engaged with the County contracted architect Architectural Nexxus to provide recommendations to fortify both the Downtown and West Jordan DA buildings in order to mitigate future damage and also provide security for employees should similar events occur in the future. Three areas of concern have been recommended by the architects for fortification of these two County owned facilities and have been reviewed by County Facilities Management for pricing estimates: * Fencing around the perimeter of the downtown DA building \$605,133
			 * Shutters for the downtown DA building first-floor windows \$1,644,079 * Parking lot expansion and fencing at West Jordan DA building \$717,244
