If a written notice is delivered under this section, the State Entity will reimburse Contractor for the Services properly ordered until the effective date of said notice. The State Entity will not be liable for any performance, commitments, penalties, or liquidated damages that accrue after the effective date of said written notice.

Contractor's responsibilities may be reinstated upon advance formal written notice from the State Entity.
15. **SALES TAX EXEMPTION:** The Services under this Contract will be paid for from the State Entity's funds and used in the exercise of the State Entity's essential functions as a State of Utah entity. Contractor gives the State Entity and the State of Utah express permission to make copies of this Contract, related sales orders, related pricing documents, and invoices in accordance with GRAMA. Except for sections identified in writing by Contractor and expressly approved by the State of Utah Division of Purchasing and General Services, all of which must be in accordance with GRAMA, Contractor also agrees

that the Contractor's Proposal to the Solicitation will be a public document, and copies may be given to the public as permitted under GRAMA. 20. **DELIVERY:** All deliveries under this Contract will be F.O.B. destination with all transportation and handling charges paid for by Contractor. Responsibility and liability for loss or damage will remain with Contractor until final inspection and acceptance when responsibility will pass to the State Entity, except as to latent defects or fraud.
21. **ACCEPTANCE AND REJECTION:** The State Entity shall have thirty (30) days after delivery of the Services to perform an inspection of the Services to determine whether the Services conform to the standards specified in the Solicitation and this Contract prior to acceptance of the Services by the State Entity.

If Contractor delivers nonconforming Services, the State Entity may, at its option and at Contractor's expense: (i) return the Services for a full refund; (ii) require Contractor to promptly correct or reperform the nonconforming Services subject to the terms of this Contract; or (iii) obtain replacement Services from another source, subject to Contractor being responsible for any cover costs.
22. **INVOICING:** Contractor will submit invoices within thirty (30) days of Contractor's performance of the Services to the State Entity. The contract number shall be listed on all invoices, freight tickets, and correspondence relating to this Contract. The State Entity has the right to adjust or return any invoice reflecting incorrect pricing.
23. **PAYMENT:** Payments are to be made within thirty (30) days after a correct invoice is received. All payments to Contractor will be remitted by mail, electronic funds transfer, or the State of Utah's Purchasing Card (major credit card). The acceptance by Contractor of final payment, without a written protest filed with the State Entity within ten (10) business days of receipt of final payment, shall release the State Entity and the State of Utah from all claims and all liability to the Contractor. The State Entity's payment for the Services shall not be deemed an acceptance of the Services and is without prejudice to any and all claims that the State Entity or the State of Utah may have against Contractor.
24. **TIME IS OF THE ESSENCE:** The Services shall be completed by any applicable deadline stated in this Contract. For all Services, time is of the essence. The State Entity may issue a written notice of default providing a ten (10) day period in which Contractor will have an opportunity to cure. Time allowed for cure will not diminish or eliminate Contractor's liability for damages. If the default remains, after Contractor has been provided the opportunity to cure, the State Entity may do one or more of the following: (i) exercise any remedy provided by law or equity; (ii) terminate this Contract; (iii) impose liquidated damages, if liquidated damages are listed in this Contract; (iv) debar/suspend Contractor from receiving future contracts from the State Entity or the State of Utah; or (v) demand a full refund of any payment that the State Entity has made to Contractor under this Contract for Services that do not conform to this Contract.
31. **FORCE MAJEURE:** Neither party to this Contract will be held responsible for delay or default caused by fire, riot, acts of God, and/or war which is beyond that party's reasonable control. The State Entity may terminate this Contract after determining such delay will prevent successful performance of this Contract.

Contractor shall indemnify, hold harmless, and defend the State Entity and the State of Utah, including anyone for whom the State Entity or the State of Utah is liable, from claims related to a breach of this duty of confidentiality, including any notification requirements, by Contractor or anyone for whom the Contractor is liable.

Attachment B
Scope of Work

1. Purpose and need for the project

Salt Lake County owns and manages 10.40 acres of river front land between 3900 South and the Little Cottonwood Creek confluence. With the recent grant award from the 2019 Leray Mcallister Critical Lands Conservation Fund and matching funds from Salt Lake County, Millcreek City will be purchasing an additional 1 acre of land adjacent to Salt Lake County's 10.40 acres.

To advance activation of the Jordan River Recreation Zone, Salt Lake County Parks and Recreation intends to master plan lands owned by the County, Cities and other agencies in 2020. The master plan process will incorporate community and stakeholder ideas to develop activation, connectivity, recreation and conservation.

Activation

Activation requires new uses and users, opportunities to gather, and ways for unique users to relate along the river corridor.

Connectivity

Access is key and successful edges are porous. Connect the parkway to the surrounding community. Cultivate community ties and a sense of stewardship. Consider multiple modes of access and circulation for people and wildlife.

Recreation

Multi-use is the watchword when master planning in the recreation zone. We envision formal trails, passive use areas, active use infrastructure and year-round recreation opportunities.

Conservation

Protect and enhance what's at the heart of the parkway, the natural corridor. Protect the variety of habitats, hydrologic cycle, river flow, wetlands, native species, wildlife, and the buffers necessary to protect the critical ecological functions and features. Balance the aesthetics, natural elements and safety in an ecologically sustainable way.

2. Location Map

The development of a trail on the east side of the Jordan River between 3900 South and Little Cottonwood Creek Confluence will begin a looped trail system. Coupling this project with the vegetation restoration project in this area will provide better access for public use which helps activate the recreation zone. A trail system on the east side of the river will augment the buffer zone, further protecting the streambank to help filter pollutants before flowing downstream.

3. Project plans and details

We currently have a consultant under contract evaluating the best trail alignment and locations for bridges between 3900 S and 4500 S. This area in its current condition is difficult to access because the invasive plant species are extremely dense. Homeless encampments are problematic throughout this reach. The strategy is to make this area more accessible to public use which will naturally make it undesirable for those who camp.

We expect that even though the trail will not reach 4500 South during the first phase of trail development, that trail usage will be constant. The nature education courses that the Tracy Aviary have programed will extend down to this location and make this a very actively used area.

The trail will be constructed to APWA standards and will be 12 foot wide gravel paved with two foot soft shoulders on both sides.

4. Estimated project timeline with milestones for implementation

March – April 2020

Mechanical removal of invasive tree and shrub species along trail

alignment April 2020 – June 2020

Trail construction

5. Description of ongoing maintenance and how it is carried out and funded

Salt Lake County Park Operations has a dedicated and trained staff responsible for trail maintenance. Adding trail in this area from 3900 South to the Little Cottonwood Creek confluence will require the Parks Division to balance the budget to include an additional .75 mile of trail. Park Operations already maintains trail pavement in this reach, so adding another short segment will be easily accomplished. Park Operations is funded annually by the Salt Lake County Council to carry out trail maintenance tasks. Our operational budget for managing trails and open space for FY 2020 will be \$683,485 which will be approved this December.

6. **Our experience and qualifications in implementing projects of similar scope and magnitude**

Salt Lake County Parks and Recreation maintains 35 miles of asphalt paved trail (Jordan River Parkway Trail, Parley's Trail, Utah and Salt Lake Canal Trail, Wasatch Trail). The County's trail crews work full time on maintaining paving surfaces, wayfinding and regulatory signage, and vegetation control.

7. **Participating partners, roles and responsibilities**

This entire project falls within Millcreek City's jurisdictional boundary. Millcreek was recently awarded a LeRay Mcallister funding grant to purchase 1 acre of riverfront property that is adjacent to 10.50 acres of land that Salt Lake County owes. The City and County will join forces to plan and implement this trail within the Jordan River Recreation Zone. Please refer to the Millcreek City letter.
