### Qualifications

#### Please tell us about yourself.

I grew up in a tiny town called Utica in Western KY. I moved all over the Eastern US after high school and lived in Chigaco, St. Louis, Baltimore, and West Palm Beach, to name a few. After having two children in my early 20's, I studied and worked in Real Estate, Emergency Medicine, and ran a successful small business. In 2014 I went back to school and obtained my Bachelor of Science in Geology. I moved with my family to Salt Lake in 2017. We live in Cottonwood Heights with our dogs, cats, chickens, and bearded dragon. We moved here to have access to better healthcare, better education, more career opportunities, and of course, the access to nature can't be beat. Since moving here, I've learned to ski, been snowmobiling, and explored all over the state, but my favorite place is in my own backyard with our gardens, pets, and family.

### Why are you interested in serving on a board or commission?

I would like to give back to the community that has given so much to me. I also see it as an opportunity to learn from others, to grow as a person, and to build community with others.

### What education, work experience, or volunteer experience do you have that applies to the board you are applying for?

I have a broad background that includes education in Real Estate, Emergency Medicine, and a BS in Geology. When we first moved here, I started work in the County Recorder's Office. From there, I moved into Flood Control managing the flood control permit program. I now work for SITLA where I manage the statewide easement program. I have significant experience in GIS, permitting, working with USACE, PLPCO, various city/county/state agencies, surveyors, and engineers. I have volunteered with the Humane Society and now foster for them. I also briefly served on the inaugural Cottonwood Heights Parks, Recreation, & Open Space Committee, but due to an unforeseen illness in my family, I had to resign. I am now able to fully commit to a board/committee again.

### What unique perspectives could you bring to the board?

I bring the perspective of a non-native Utahn, but also someone that's lived here long enough to understand the special qualities, as well as the unique challenges, of the state. As a parent of two children, one with physical disabilities, and one in the LGBTQ community, I also understand how we can make SLCo a better home for all people. I have worked in the private and public sectors and have been a small business owner. I have struggled financially as a single mom, gone back to school as an adult, and successfully moved across the country where we have been able to build a great life and a great future for us and our children.

### Which Boards would you like to apply for?

Mountainous Planning District Planning Commission: Submitted

Parks & Recreation Advisory Board: Submitted

---

### Referred by:

---

### Qualifications

#### Please tell us about yourself.

I am an avid outdoor recreationalist who has a deep respect for our open spaces and thoughtful community trail and park plans. I've also provided technology consulting services to state and local governments for 20+ years which gives me a unique understanding of funding models, and RFP processes unique to municipal entities. Although I've had the chance to reside in several states like Arizona, Colorado, Illinois, California, Wisconsin, and Texas, Utah has been my primary and enduring home. Over the years, I've spent more time in Utah than anywhere else, and it has always held a special place in my heart.

#### Why are you interested in serving on a board or commission?

After moving back to Salt Lake County in 2021 and getting myself settled and re-familiarizing myself with the parks, trails, and open spaces here in the county, I have a deep desire to give back to the community by serving on this and other county boards that address the growing need to preserve or reclaim open spaces, parks and trails that serve all county residents and visitors.

**What education, work experience, or volunteer experience do you have that applies to the board you are applying for?**

I've served on several boards and commissions in Utah and other States (Texas, and Colorado). The most recent was the Traverse Mountain Trail Association Board which worked extensively with public and private entities to build hiking and biking trails in the Lehi and Draper area. Here is a list of boards, commissions, and volunteer organizations I've served on: -Traverse Mountain Trail Association Board Member -Team Lead Bastrop Fire Cleanup -Team Lead Hurricane Ike Relief Cleanup -Planning Commission Chairman for Eagle Mountain City -Board Member, Economic Development Committee Eagle Mountain City -Pony Express Days Chairman -Event Supervisor - Visitor Information Services: 2002 Salt Lake Olympic Winter Games

**What unique perspectives could you bring to the board?**

Those who know me in my personal and professional life will tell you that I am a great facilitator and networker who connects passionate people to solve complex problems. I consider it a true privilege to live in this beautiful community that is not without its environmental and growth challenges. However, I believe in the efficacy of grassroots movements of everyday citizens to help solve these challenges and opportunities. My diverse experience serving on various boards and commissions, both locally, regionally, and out of State, has given me a unique perspective. I'm confident that I can make an immediate impact serving on this board and working with its constituents.
