<b>Form ID:</b>	<b>30957</b>	<b>Current Stage</b>	<b>Type</b>	<b>Council Approval</b>	<b>Council Approval Date</b>
<b>Name:</b>	<b>SPCC Grease Separators</b>	3606 - Chief Financial Officer	Capital Project Budget Transfer	No	

**Request Description:** Grease separators are devices designed to collect fats, oils, and grease from wastewater before it enters the main sewer system. They prevent the flow of these substances into municipal sewage. Normally we would repair this (grease separators), but the parts that we would normally buy to repair are now discontinued, so this is a replacement of the current grease separators that we currently have. The grease separators are attached to the building.

Unused available funds from Project SP19\_07 will fund SP24\_20 (This Project).
