Breakdown of the State's County of the First Class Highway Fund 20%:

42.5% pays:

- 2017 General Obligation (GO) State Bond (retire in 2032)
- \$28M to State Transportation Investment Fund (TIF) of 2005 (retire in State FY 2021)
- After 2017 General Obligation State Bond and \$28M has been paid, the balance of 42.5% will be transferred to legislative body of a county of the first class for transportation purposes

20% is transferred to a public transit district (UTA) in a county of the first class to fund a system for public transit

20% is transferred to the legislative body of a county of the first class to fund parking facilities that facilitate significant economic development and recreation and tourism within the state. Separately, we applied for, and received, an SIB loan and will use this stream to fund payments on the loan.

17.5% being held in fund to mitigate against revenue decline
