The Legislative Body of Salt Lake County ordains as follows:

SECTION I. The enactment made herein is set forth as follows:

SECTION II. Section 3.27.010 of the Salt Lake County Code of Ordinances, 2001, is enacted to read as follows:

3.27.010 Legislative findings and purpose.

A. The council finds that:

1. A healthy and well-trained construction workforce improves a contractor's ability to fully perform its duties in building improvement and public works projects and is critical to the economic future of the county.
2. The efficient and economical construction of public works and building improvement projects will be hindered if there is not an ample supply of healthy, trained construction workers.
3. By requiring the minimum standards below on public works and building improvement projects, governments can assist in the health and safety that will help assure that a skilled workforce will be available in sufficient numbers for the construction of public works in the future.
4. The purpose of this ordinance is to promote the health and safety of the workforce, and enhance the economic vitality of the county.

D. A building improvement or public work project may not be subdivided into smaller parts to circumvent the requirements of this subsection 3.27.030.

C. May not be used by an employee of a contractor or subcontractor or any other third party as a basis for any private action or suit against the county for damage for the failure of a contractor or subcontractor to meet the requirements of this section.
