Description and justification: (Attach additional pages as needed.)

The Library plans construction of five buildings. We would like to begin programming and land purchase in 2017 with the identified funds appropriated for land purchase and construction for the Kearns location. The programming and design will include more refined cost estimates for the construction of each of the buildings. With that information we will be able to bond with more accurate project costs in 2018.

(1) If the request is for a grant, include the dates the grant will expire and what obligations are required of the County after the grant expires.
