ATTACHMENT A

Interlocal Agreement Between Unified Police Department and Salt Lake County Fleet Services

1) General Provisions

Salt Lake County Fleet will provide certified and trained personnel and maintain facilities and equipment for the following services:

- A. Provide maintenance and repair of vehicles and equipment owned and operated by the UPD. Work shall be performed at the Fleet shops during Fleet's normal hours of operation unless other arrangements are made per "B" below.
- B. After-hours and on-location services will be provided as needed.
- C. All fees for such services shall be agreed upon in writing upon the request for these services prior to the provision of any such services.
- D. Provide both light and heavy-duty towing capabilities to the Fleet shops or other locations as per the UPD's request.
- E. Maintain current training on all equipment provided by vendors and any additional training requested by the UPD.
- F. Provide monthly, quarterly, and other periodic reports on maintenance and utilization of the UPD's equipment and vehicles as requested and make recommendations on the most efficient life-cycle of all pieces of equipment owned by the UPD in a manner acceptable to the UPD.
- G. Use parts for the UPD's equipment and vehicles that meet all manufacturer and warranty requirements.
- H. Make high-pressure wash equipment available during UPD hours of operations.
- I. Provide preventive maintenance programs and reports.
- J. Provide purchasing and services through Fleet-managed contracts.
- K. Consult on preparing specifications as needed or requested by the UPD.
- L. Provide access to online Fleet Management system to view utilization reports and vehicle work.
- M. Manage and allocate shared building costs.

2) Sublet Labor

Fleet administers and maintains several service contracts with vendors. Fleet may, at its discretion, use outside vendors to provide services to the UPD, if Fleet cannot perform the work or finds that the vendor can provide the work more cost effectively or in a more timely manner. Fleet shall arrange for pickup and delivery of equipment to the vendor as needed. Fleet shall charge the UPD the rate charged by the service provider, plus a service charge per invoice. Service charge shall be applied only to the invoice cost from the service provider. The cost of pickup and delivery, if applicable, will be charged at the current labor rate.

3) Parts

Fleet administers and maintains parts contracts for maintenance parts for the UPD equipment. Fleet shall apply a markup charge to cover administrative overhead costs. The markup shall be applied only to the invoice cost of the parts charged by the supplier. The markup shall not be applied to shipping cost, fuel surcharges, or any other miscellaneous charges invoiced by the supplier. Fleet will provide the UPD details of how markup charges are calculated. The UPD maintains the right to audit any parts purchase to include all documentation showing invoicing, bids, markups, etc.

The UPD must also give approval prior to any tire changes that are done strictly due to wear depth.

4) Shop Charges

The incidental costs of doing business including consumable and shop supplies and environmental disposal fees shall be recovered through a shop charge per work order. The shop charge shall apply only to work performed by the Fleet shops.

5) Rates for Labor

Fleet will charge actual labor performed on a work order except in the case where a flat rate has been assigned to the task performed. Fleet will continue to expand flat rate charges at an agreed upon rate by both the County and the UPD.

6) Road Call Charges

The overhead costs associated with providing field service work (any site other than Fleet shops) include vehicle depreciation, replacement, maintenance, fuel, special tools and equipment required to perform field service work, consumable and incidental supplies and environmental disposal fees. Fleet will ensure that the UPD receives road call service within one hour of the call.

7) High-Pressure Wash

Fleet will make its truck wash facility available to the UPD and charge the UPD a per-wash fee. UPD employees will be assigned a number to access the wash. Fleet will invoice those charges to the UPD monthly.

8) Credits

Fleet shall pass along to the UPD any credits which might be obtained by the Fleet for insurance subrogation, manufacturer rebates, vendor credits, or any other type of refunds or credits eligible for work or service performed on behalf of the UPD's vehicles or equipment by Fleet.

9) Training

Fleet mechanics will be manufacturer-trained and certified to work on the UPD trucks and equipment. If the UPD requests that Fleet staff attend trainings provided by vendors or otherwise above the required training and certification level identified by Fleet, the UPD will be responsible for the cost of travel including airfare, ground transportation, lodging, meals and incidentals related to the training.

10) Warranty

Fleet shall provide a ninety (90) day or 3,000-mile warranty, whichever comes first, on parts and labor performed by Fleet. Electrical parts shall be excluded and subject to manufacturer warranties if applicable. When applicable, manufacturer's warranty will be given to include the cost of parts and labor, where the warranty exceeds the 90 days/3,000 miles, granted by Fleet.

11) Fuel

Fleet will provide the UPD's fuel and infrastructure for fueling for diesel, and gas. The UPD will commit to using Fleet fueling or Fleet-managed fueling programs for its fleet. UPD will have access to a fleet fuel card program to purchase fuel from participating retail sites. UPD shall have access to internally managed fueling sites at the following locations as well as future locations:

Midvale complex
Government Center
Parks and Recreation
Transfer Station
Landfill

Fleet will manage the fuel program including issuing fuel cards, cancelling fuel cards, 24-hour access for assistance in using the cards, mileage interface transfer and mileage updates. Fleet will provide tracking, reporting, and adjusting out-of-parameter mileage inputs and odometer error reports.

Fleet shall apply charges to each gallon of gas or diesel to cover administrative overhead costs and notify the UPD of any rate changes.

12) Vehicle Purchasing and Sales

Fleet will process vehicle purchases for the UPD through its contracts. The UPD will establish replacement schedules for its equipment. Fleet will maintain the contracts for vehicle sales.

13) Fleet-Managed Contracts

Fleet will make available services and procurement through its contracts for the UPD on an as-needed basis.

14) Fleet Equipment and Vehicle Management and Consulting

County will charge a yearly fee per vehicle to cover the administrative costs of vehicle management including the following:

- Managing replacement fund balance per vehicle
- Providing financial information to UPD's fiscal staff for cash flow analysis
- Fleet Management consulting
- Providing a semi-annual report, recommending the most efficient life-cycle of all pieces of fleet equipment owned by UPD
- Providing replacement recommendations
- Providing inflationary market analysis, trends and recommendations
- Providing residual value market analysis, trends and recommendations
- Providing replacement data management and recommendations
- Providing recommendations for vehicle standardization by class and service needs
- Recommendations for the up-fitting of vehicles
- Database Management
- Providing preventive maintenance programs and reports
- Providing utilization reports
- Disposal of vehicles and associated contractual cost
- Preparing specifications using PC Car Book manufacturing specification vehicle build codes
- Purchasing vehicles and equipment, upon UPD approval
- Preparing non-contracted specifications, ordering vehicles and equipment
- Annual registration fee

Not included are the cost for travel, including airfare, ground transportation, lodging, meals and incidentals related to the specialty equipment requiring mid-build visits or final inspections prior to delivery.

15) License and Registration

Fleet will provide vehicle licensing and registration for the UPD vehicles and provide plates, stickers, and relevant records to the UPD Fleet Manager.

16) Motor Pool

Fleet maintains a pool of rental vehicles from which the UPD can access short or long-term rentals. Standard vehicles and some specialty vehicles and equipment are maintained in this pool. A rental charge and mileage fee is applied.

17) Purchasing Used Vehicles from Salt Lake County

If the UPD determines that purchasing used Fleet equipment or vehicles, or Fleet determines that purchasing used UPD equipment or vehicles, would meet the needs of the either party, the following process and fees shall be applied:

- Fleet shall determine the value of the equipment or vehicle based on NADA and local market adjustment where applicable.
- Sales agreement will be signed by both parties.

ATTACHMENT B

Interlocal Agreement Between Unified Police Department and Salt Lake County Information Services

Provide and maintain trained personnel, facilities and equipment to provide the following services. The level of service agreed to each year will be included on the pricing sheet:

1) Remote Access

Secure remote access service to a County IT resource or system. Secure mobile remote access is provided through an enterprise class installation of a best of breed system. Access to UPD or County IT resources and systems can be provided from any location as long as a cellular, WIFI, or DSL Internet connection is available.

2) Forensics

Certified IT security professionals work with customers on their IT forensic needs. Investigation of employee AUP violations and computer system misuse are done in a confidential manner. Computer scans are performed as requested by the UPD.

3) Regulatory Compliance

Certified IT Security professionals are available to help the UPD understand and comply with IT security regulations including PCI compliance. The County shall provide the UPD with needed coverage for its cyber security needs in relation to any issues that may be caused by the County.

4) ColdFusion Hosting

ColdFusion hosting is where the server portion of the ColdFusion language is implemented. ColdFusion applications require a specialized application server to run and this service provides that specialized server. This specialized server manages multiple ColdFusion applications as well as connections to databases, mail servers and messaging systems. The server dynamically creates the pages using associated resources that have been by a web server. The web server in turn serves the pages to the requesting browser.

5) 3rd Party Application Hosting

Hosting services for applications purchased from outside vendors. This service offers a wide variety of configurations based upon the vendor's specifications. The charges for this service shall be based upon the number of applications.

6) J2EE Application Hosting

Powerful, reliable J2EE compliant Java application hosting. This service provides servlet containers for applications that utilize JAVA and J2EE technologies. The containers fully support JSP-Servlet Technology. The application servers are run on both the Linux and Windows platforms.

7) GIS License Hosting

IS hosts a number of concurrent licenses for the ESRI ArcMap desktop products. These licenses provide two levels of features the fully functional ArcInfo and ArcView which provides a more limited feature set. ArcGIS Server is also hosted this allows hosting of REST services that may encapsulate GIS data and methods for interacting with that data. The GIS hosting also includes extensions to the Microsoft SQL Server that enhances and extends the use of GIS raster and vector data.

8) Message Oriented Environment

Allows independent and potentially non-concurrent applications on different systems to communicate with each other. Provides the ability for application to create, send and read messages.

9) Database Hosting

Provide both shared and dedicated MS SQL database hosting for Caselle Database. The data is available for ad hoc reporting or can be accessed via applications.

10) Application Development/Support

Provide custom application development and support to meet the needs of customers. This service includes the full range of application development activities, including analysis, design, programming, integration with existing systems and data conversions. The major technologies used for development and which are supported are ColdFusion, HTML, Java, JavaScript, COBOLm DB 2, MS SQL and GIS. This service also provides support and customization for systems purchased from outside vendors.

11) Solutions Consulting

Consulting on Application Services Projects as requested by the UPD and at a rate agreed upon by both parties.

12) Solutions Project Management

Project Management Services as requested by the UPD and at a rate agreed upon by both parties.

13) Voice & Data Design and Consulting

Access to shared servers, printers and applications that reside on the County network as well as access to the County internal phone system which includes 4 or 5-digit dialing to peers, voicemail, call detail, PSTN access, long distance, etc.

14) Network Administration

The Network Administration service includes:

Install, maintain and repair a variety of network services including routers, switches and other associated communications equipment. Monitor and analyze performance. Respond to problems and coordinate timely repair of circuit outages. Deployment of network products, operational support of network products, network tuning and network diagramming.

15) WAN/LAN

IS operates a County "Wide Area Network" (WAN) that connects remote locations to the County Data Centers using routers and circuits provided by Local Carriers like Qwest. This type of connection can give remote location users access to the Internet, email, file shares and other network resources. Carrier circuits come in a variety of speeds from 1.5 Mbs to 1 Gbs. IS operates a "Local Area Network" (LAN) in most County owned facilities using switches. Some of these LAN's connect through the WAN to County data centers for access to internet, email, file shares and other network resources. LAN speeds can be 10/100 or 1Gbs.

16) Storage

Enterprise Storage service offers several technologies including SAN, Mainframe disk and Mainframe tape storage iCloud and Cloud environments.

17) Backup

Backup service allows for the protection of Customer data.

18) Emergency Support

IS acts as the first point of contact to assist UPD staff with support of workstation hardware and software.

19) Desktop Support

Ordering, Installation, configuration and maintenance of workstation hardware and software. The UPD shall have access to the County's Help Desk for ongoing support and problem resolution.

20) Laptop Support

Ordering, Installation, configuration and maintenance of laptop hardware and software. The UPD shall have access to the County's Help Desk for ongoing support and problem resolution.

21) Mobile Device Support

Installation, configuration and maintenance of mobile device hardware and software.

22) Server Support

Standard and custom-built Microsoft Windows servers to meet the specific needs of customers and/or third-party vendors.
