# WASATCH CANYONS GENERAL PLAN UPDATE

PARLEY'S • MILL CREEK • BIG COTTONWOOD • LITTLE COTTONWOOD

## VISIONING EVENTS OUTREACH SUMMARY

### **INTRODUCTION**

As part of the community outreach process for the Wasatch Canyons General Plan Update, Salt Lake County hosted several public events throughout October and November.

Between formal open houses and interactive booths at community events, approximately 300 people were able to participate, including residents, employees, business owners, community leaders, youth, and other stakeholders. The visioning events were noticed on the project web-page, social media pages, project email lists, and by community groups.

In addition to the in-person events, an opportunity to participate online was provided in the form of a survey. The online survey contained the same questions and information from the in-person events.

Note: This document only summarizes in-person outreach.

### **OBJECTIVE**

The purpose of the visioning outreach was to give interested members of the public an opportunity to provide input on preliminary vision statements and corresponding opportunities for the Wasatch Canyons.

### FORMAT

Large meeting rooms inside libraries, schools, and community centers were used for the open house's where ten poster boards with information about the five vision statements (land use, environment, recreation, economy, and transportation) were presented. Each board included a draft vision statement with space to rank the statement on a scale of one to five, with a one being "strongly disagree" and a five being "strongly agree."

Additional presentation boards included a "Where are you from?" map where participants were asked to place a pin where they lived, as well as "What we've been hearing" boards with a summary of public input gathered so far in the planning effort.

Special thank you to all those who took time to participate in these meetings.

# **VISIONING EVENTS**

Open House Cottonwood Heights City Hall October 18, 2017 Open House Solitude Ski Resort October 28th, 2017

Booth Wheeler Farm Halloween Event October 24, 2017 Open House Corner Canyon High School (Draper) November 1, 2017

Open House Millcreek Community Center November 9, 2017

The process provided an opportunity for the community and visitors to voice their values, describe pressing needs, and prioritize opportunities. A range of events were held to engage all types of respondents: kids, teenagers, families, locals, and visitors were given an opportunity to participate.

### WHO DID WE HEAR FROM?

At each event we asked participants to place a pin on where they live to get a sense of where our participants were coming from. Each red dot represents 1 - 5 people.

## WHAT WE HEARD

The enthusiasm towards community engagement and passion of local residents was evident in the responses received during the community vision process. The following is a summary of residents and visitors shared values. It does not include every value mentioned, but attempts to summarize shared values that were mentioned most frequently.

### Vast Supply of Wild Lands

The number one response to the question, "What do you love most about the Wasatch Canyons?" was the vast supply of wild, natural lands available for people to explore, experience, and adventure in. Participants have a great pride for the Wasatch Canyons and even revere them as "their backyard." This kind of affection for the natural landscape of the is ingrained in the culture of Salt Lake County and celebrated as one of the greatest natural assets in the State of Utah.

### Quick and Easy Access to the Canyons

Access to natural-based amenities and an abundance of recreational opportunities was ranked next on the list of what was loved most about the Wasatch Canyons. Participants love the fact that they can leave their homes and 10 - 30 minutes later be at a trailhead for a hike before dinner. In no other major metropolitan area in the United States do residents have that kind of access to natural assets as vast as the Wasatch Canyons. In most urban areas, people have to drive for hours just to reach natural areas equivalent in size to the Wasatch, taking up whole days or weekends of their time.

### Importance of Canyons and Foothills Preservation

Next on the list of values is the importance that participants place on preservation of the natural environment. Many who participated in the visioning process desire the Wasatch Canyons to be protected from large-scale future development and preserved to the extent feasible for future generations to love and enjoy. At the same time, many who participated emphasized the benefit of private property uses on the culture and function of the Canyons and support their continuation.

### **Diverse Range of Recreational Activities**

The recreational opportunities in the Wasatch are a world-wide draw to the Salt Lake Area. Both active and passive recreation activities are available for visitors to experience, ranging from hiking to skiing, rock climbing to photography, and picnicking to bird watching. The Wasatch Canyons have something for almost everyone and residents know just how lucky they are to have such variety of things to do in the Canyons.

## **VISION SURVEY SUMMARY**

The Visioning Survey asked questions about the five vision statements of recreation, environment, economy, transportation, and land-use as well as if participants would support ideas generated through public input so far in the process. Questions about age, gender, and place of residence were also asked at the end of the survey.

### WHO PARTICIPATED?

The participants of the survey included a diverse range of ages. The pie-chart below is a breakdown of these age demographics. Additionally, 70% of participants were male while only 30% were female. The pie-chart to the below also shows where survey participants were from. Per the pie chart, most people were from the Salt Lake Valley with being from the cities of Salt Lake, Millcreek, Draper, Holladay, and South Salt Lake. Another large portion came from within the project area, other locations within Utah, and out of state participants (11%).

### SUMMARY REPORT

The following pages include a brief summary of the survey results. For a full report of the public comments on the vision statements, see the attached report following this summary.

### 1. LAND USE

**Original Vision Statement:** Strive for excellent partnerships among jurisdictions and stakeholders through collaboration and coordination to provide for access management, water resource protection, recreation opportunities, wildlife and environment, private property uses, and quality open spaces.

| Option                  | Count | %     |
|-------------------------|-------|-------|
| N/A                     | 7     | 0.4%  |
| 1 (Do not agree at all) | 29    | 1.8%  |
| 2                       | 45    | 2.7%  |
| 3 (Neutral)             | 183   | 11.1% |
| 4                       | 603   | 36.5% |
| 5 (Fully agree)         | 785   | 47.5% |

### Do you agree with this vision statement?

### 2. RECREATION

**Original Vision Statement:** Offer a wide range of diverse, high-quality, and year-round recreational experiences that are accessible to all kinds of participants.

| Do you agree with this vision statement? |  |
|--|--|
| 0.1 %                                    |  |

| Option                  | Count | %     |
|-------------------------|-------|-------|
| N/A                     | 2     | 0.1%  |
| 1 (Do not agree at all) | 75    | 4.6%  |
| 2                       | 98    | 6.0%  |
| 3 (Neutral)             | 188   | 11.1% |
| 4                       | 431   | 26.7% |
| 5 (Fully agree)         | 820   | 50.8% |

### **3. TRANSPORTATION**

**Original Vision Statement:** Implement transportation projects and opportunities for bicycles, transit and vehicles to reduce congestion, improve air quality, facilitate access, increase occupancy per vehicle and enhance public safety.

| Option                  | Count | %     |
|-------------------------|-------|-------|
| N/A                     | 1     | 0.1%  |
| 1 (Do not agree at all) | 55    | 3.4%  |
| 2                       | 59    | 3.6%  |
| 3 (Neutral)             | 131   | 8.1%  |
| 4                       | 346   | 21.3% |
| 5 (Fully agree)         | 1,030 | 63.5% |

### 4. ENVIRONMENT

**Original Vision Statement:** Support healthy forests, connected ecosystem habitats and waterways for current and future generations. Promote programs that improve watersheds, air quality, vegetation and wildlife ecosystems, and scenic quality.

#### Do you agree with this vision statement?

| Option                  | Count | %     |
|-------------------------|-------|-------|
| N/A                     | 5     | 0.3%  |
| 1 (Do not agree at all) | 17    | 1.2%  |
| 2                       | 16    | 1.1%  |
| 3 (Neutral)             | 83    | 5.7%  |
| 4                       | 272   | 18.7% |
| 5 (Fully agree)         | 1,065 | 73.0% |

### 5. ECONOMY

**Original Vision Statement:** Responsibly promote the Wasatch Canyons as a unique world class recreation destination to provide an immense economic impact to the region. Within the Canyons enable businesses to continue providing services and goods without compromising the environment.

### Do you agree with this vision statement?

| N/A                     | 2     | 0.1%  |
|-------------------------|-------|-------|
| 1 (Do not agree at all) | 161   | 8.3%  |
| 2                       | 149   | 7.7%  |
| 3 (Neutral)             | 134   | 6.9%  |
| 4                       | 400   | 20.6% |
| 5 (Fully agree)         | 1,100 | 56.5% |

### 6. PLANNING IDEAS:

Participants also provided feedback on potential planning ideas and whether they could contribute to achieving their vision for the future.

# **VISION FOR** THE WASATCH CANYONS

### DRAFT January 08, 2018

DHNNYADOLPHSON\_SHUTTERSTOCK.C

# WASATCH CANYONS GENERAL PLAN UPDATE PARLEY'S MILL CREEK BIG COTTONWOOD LITTLE COTTONWOOD

### BACKGROUND

### WHAT IS THE GENERAL PLAN?

The General Plan will be a long-term strategic plan with a guiding vision, policies, strategies, and ordinances for management and collaboration; and will shape decisions related to new development, redevelopment, County programs, projects, budgets, and services. It identifies a vision for the future of the Canyons and provides goals and prioritized actions that ensure critical decisions are aligned with what's important to the community.

#### **PROJECT SCOPE**

Most of the planning area is within the Uinta-Wasatch-Cache National Forest and is managed by the U.S. Department of Agriculture Forest Service (Forest Service). The County has direct planning and zoning jurisdiction over the private lands in the planning area. The scope of the General Plan broadly considers all lands, agency

land management plans, and resources within the planning area, and the County's partners in recreation, transportation and environmental quality across jurisdictional boundaries.

# INTRODUCTION

The Wasatch Canyons Vision document defines how the Wasatch Canyons (Parley's Canyon, Mill Creek Canyon, Big Cottonwood Canyon, Little Cottonwood Canyon, and the foothills) should look into the future. It considers how the greater community will access them, how millions of people will play in them, how to balance the need for private property uses and environmental preservation, and how management of the landscape will evolve to preserve the Canyons for future generations. Protecting the qualities that collectively encompass the Canyons and celebrating the area's natural significance have been essential to the visioning effort.

Visioning is a critical step in every planning process, creating a foundation for more effective community engagement and planning. Visioning ensures that County residents and leaders values and goals are accurately reflected in the plan's elements, policies, and frameworks. Visioning also provides the framework foundations for the next phases of the planning process. The vision creates the structure and initial agreements necessary to discuss the tough issues that will be further addressed in the General Plan Update process. The Vision document will be updated and expanded over the course of the planning process to eventually serve as a chapter of the General Plan.

The vision is organized into five planning themes: Land Use, Environment, Recreation, Transportation, and Economy.

# A VISION FOR THE WASATCH CANYONS

The vision developed through a series of community conversations and ideas from prior planning projects and represents the aspirational outlook for the future the Wasatch Canyons. Building on public feedback, discussions with stakeholders, and County staff, this vision document will help guide the creation of the Wasatch Canyons General Plan. For a summary of all visioning activities and events, visit <u>slco.org/wasatch-canyons</u>.

WE ARE HERE!

*Vision: The five vision statements describe the desired future of the Wasatch Canyons based on shared values. The vision themes also guide the direction of the General Plan.* 

*Principles: The principles under each of the vision elaborate on the future setting, character, opportunities, and agency actions for the Wasatch Canyons in the next 15-20 years.* 

# LAND USE

Vision: Strive for mutually beneficial partnerships among jurisdictions, government agencies, and stakeholders through collaboration and coordination to provide for water resource protection, recreation opportunities, wildlife, approved private property uses, and quality open spaces.

- 1. [Partnerships] Maintain consistent and effective collaboration and coordination among jurisdictions, government agencies, and stakeholders, while acknowledging that stakeholders include canyon residents, businesses, and visitors.
- 2. [Community] Support quality planning and zoning that encourages social and community relationships, healthy lifestyles, and public safety.
- 3. [Private Property] Provide for continuation and improvement of approved uses.
- 4. [Regulatory Tools] Maintain zoning that allows development in appropriate areas and preserves lands for watershed, recreation, scenic value, and wildlife.
- 5. [Environment] Collaborate with public and private
- 6. entities to support clean watersheds, biodiversity, healthy forests, and resilient landscapes.
- 7. [Aesthetics] Encourage the aesthetic beauty of the man-made environment and the protection of the scenic natural environment.

# ENVIRONMENT

Vision: Serve as stewards to support healthy forests, connected ecosystems, habitats, and waterways for current and future generations. Promote programs that improve watersheds, air quality, vegetation, wildlife ecosystems, and scenic quality.

- 1. [System] Protect and steward open lands and natural resources (air, water, wildlife, fisheries, climate, trail systems, wetlands, dark skies, soundscape, soils, open space, native vegetation).
- 2. [Open Space] Promote the acquisition of natural and undeveloped lands for conservation.
- 3. [Water] Protect, maintain, and improve watershed health, water supply, and water quality.
- 4. [Air] Protect and improve air quality for protection of public health, environmental health, and scenic visibility.
- 5. [Native Species] Maintain healthy populations of native species and support early detection and rapid response to eliminate invasive species and noxious weeds.
- 6. [Wildlife] Preserve sensitive habitats and migration areas for wildlife.
- 7. [Property] Respect approved private property uses and promote their stewardship of the environment.
- 8. [Wildfire] Support wildfire safety and defensible space.

# RECREATION

Vision: Continue to support high-quality recreation opportunities for a diverse public and sustainable facility maintenance.

- 1. [System] Maintain consistent coordination with neighboring jurisdictions and agencies to support a connected recreation system.
- 2. [Responsible] Support programs that promote responsible recreation and personal responsibility for public safety and protection of the Canyon's natural resources.
- 3. [Accessible] Enhance and preserve access to public lands.
- 4. [Diversity] Maintain a spectrum of diverse recreation opportunities for participants at all levels, abilities, and interests.
- 5. [Sustainable] Recognize the need to accommodate different user groups in ways that minimizes user conflict and landscape damage.
- 6. [Facility] Provide support through grants and or other funding revenues for recreation facility maintenance, trailheads, and restrooms.
- 7. [Year-Round] Consider year-round needs in recreation planning and facility maintenance.

# **TRANSPORTATION**

Vision: Support and prioritize projects for transit, bicycles, pedestrians, and vehicles to reduce congestion, improve air quality, enhance safety, and facilitate connectivity to the regional transportation system.

- 1. [Collaboration] Collaborate in long-term transportation planning with UDOT, UTA, USFS, Salt Lake City Public Utilities, private property owners, local jurisdictions (Salt Lake and Summit counties) and other involved agencies.
- 2. [Choice] Create convenient, safe, timely, sustainable, and efficient options for transportation by a variety of modes that satisfy multiple needs.
- 3. [Character] Promote context appropriate transportation modes and projects that are appropriate for the each canyon's unique context.
- 4. [Accessibility] Provide well-maintained and accessible transportation infrastructure including roads, parking facilities, pathways, and walkways.
- 5. [Transit Stops] Create canyon ADA-compliant transit stops with restroom facilities, and bus pullouts for user comfort and aesthetics.

# ECONOMY

Vision: Sustain the Wasatch Canyons as a world-class recreation destination that provides significant economic benefit to the region. Enable businesses to continue providing goods and services without compromising the environment.

### **GUIDING PRINCIPLES:**

- 1. [Context Appropriate] Attract and retain canyon businesses that are economically and environmentally sustainable.
- 2. [Tourism] Recognize that tourism is a fundamental component of the Utah economy and is dependent on healthy and vast natural and scenic resources.
- 3. [Stewardship] Encourage businesses to be environmental stewards through practices and education outreach to customers and visitors.
- 4. [Branding] Promote signage and branding that highlights the history and heritage of the Canyons, and promotes appreciation and stewardship.

NK SHUTTERSTOCK.COM

# **MOVING FORWARD**

The Vision embodies the expectations and the potential of the Wasatch, and directs how the future built and natural environment is planned and designed. The next step is to establish the plan's policies and projects based on the foundation provided in this document. Each canyon and the foothills will have their own chapter within the General Plan where details on the policies and projects will be fleshed out. A thoughtful, deliberate combination of large and small projects, fresh programs, and new partnerships will lead to an implementable planning strategy.

### Now is the Time!

Now is the time to put your mark on the Wasatch Canyons General Plan! As the process moves forward, it is important that the community continues to be involved. Make sure that your thoughts and ideas are heard. Jump into online discussions, <u>slco.org/wasatch-canyons</u>, join your friends and neighbors at public meetings, and share opinions in surveys and at open houses. Look out for "Opportunities and Choices" public events this spring!

> We value your opinions and look to include your ideas in the future of the Wasatch Canyons.

# GLOSSARY

ADA-Compliance: allows for persons in wheel chairs to access certain areas via ramps, elevators, hand rails, etc.

Biodiversity: Variety of wildlife within a particular habitat or ecosystem.

Branding: Creating an identity for a place in regards to its logo, slogan, design, etc.

**Conservation:** The act of protecting the natural environment from degradation.

Entities: A department within the government.

Government Agencies: An appointed organization that is allowed oversight and administration over specific functions of society.
Healthy Forests: A forest that is able to sustain its species and landscape even in the event of an outside disturbance such as a wildfire.
Invasive Species: Species of plant and animal life that are not native to an ecosystem causing harm to the native species of those ecosystems.
Jurisdictions: An official government power to make legal decisions and judgments over a defined area.
Man-made Environment: (or built environment) Man-made settlements that provide for human activity such as living, working, and playing.
Native Species: Species of plant and animal life that originate and naturally evolve within a region without human assistance.
Open Lands: Lands that are void of man-made structures with significant vegetation cover.
Public Lands: Non-privatized land that is owned by the public and accessible to all.

Recreation: Leisure relating to activities done for enjoyment.

Recreation Facility: Places such as trailheads that offer amenities like bathrooms, waste bins, and way-finding signs.

Resilient Landscapes: Landscapes with the ability to quickly recover from an outside disruption such as a wildfire.

Scenic Value: The, often intangible, worth of aesthetic views of nature and the environment.

Signage: Signs used to help navigate users to important destinations.

**SLCPU:** Salt Lake City Public Utilities: Responsible for protecting and managing the Wasatch watershed area.

Stakeholder: A person with a stake or interest, such as a land managing agency or property owner, within the Canyons.

Stewardship: Taking care of a place, something, or someone.

Transportation Modes: A way of traveling through different transportation options such as walking, biking, driving, or taking transit.

**UDOT:** Utah Department of Transportation: Responsible for building and maintaining state roads and bridges.

**USFS:** United States Forest Service. Responsible for protecting and managing US forest areas.

UTA: Utah Transit Authority: Responsible for serving the Salt Lake Metropolitan area with transit including bus, rail, and shuttle services.

Watershed: An area of drainage ranging from mountain snow pack to rivers, lakes, and oceans.

Wildlife: The collective populations of animal and plant life within a designated area.

Zoning: Laws and regulations defined by the government to determine how land can be used in certain areas.

## Wasatch Canyons General Plan

County Council Meeting March 2018

## **OVERALL PROCESS**

## **HOW DID WE GET HERE?**

Booth Salt Lake City Downtown Farmers Market August 26 and October 21, 2017

Booth Tour of Utah Brighton Resort August 2, 2017 Booth Mill Creek Canyon September 9, 2017

> Public Kickoff Open House Whittmore Library September 27th, 2017

### **VISIONING EVENTS**

Booth Snowbird Ski Resort Oktoberfest October 14, 2017

Open House Cattonwood Heights City Hall October 18, 2017

Booth Wheeler Farm Halloween Event October 24, 2017 Open House Solitude Ski Resort October 28th, 2017

> Open House Corner Canyon High School (Draper) November 1, 2017

Open House Millcreek Community Cente November 9, 201

The process provided an opportunity for the community and visitors to voice their values, describe pressing needs, and prioritize opportunities. A range of events were held to engage all types of respondents: kids, teenagers, families, locals, and visitors were given an opportunity to participate.

#### VISION SURVEY SUMMARY

The Visioning Survey asked questions about the five vision statements of recreation, environment, economy, transportation, and land-use as well as if participants would support ideas generated through public input so far in the process. Questions about age, gender, and place of residence were also asked at the end of the survey.

#### WHO PARTICIPATED?

The participants of the survey included a diverse range of ages. The pie-chart below is a breakdown of these age demographics. Additionally, 70% of participants were male while only 30% were female. The pie-chart to the below also shows where survey participants were from. Per the pie chart, most people were from the Salt Lake Vallev with being from the cities of Salt Lake. Millcreek, Draper, Holladay, and South Salt Lake. Another large portion came from within the project area, other locations within Utah, and out of state participants (11%).

# **VISION & PRINCIPLES**

## Vision Statements

- The five visions are overall statements that describe the desired future of the Wasatch Canyons based on shared values.
- Principles
  - The principles under each vision further elaborate on the future setting, character, and opportunities in the next 10-15 years.

# **FIVE PLANNING THEMES**

- Land Use
- Environment
- Recreation
- Transportation
- Economy

## LAND USE

Vision: Strive for mutually beneficial partnerships among jurisdictions, government agencies, and stakeholders through collaboration and coordination to provide for water resource protection, recreation opportunities, wildlife, approved private property uses, and quality open spaces.

- [Partnerships] Maintain consistent and effective collaboration and coordination among jurisdictions, government agencies, and stakeholders, while acknowledging that stakeholders include canyon residents, businesses, and visitors.
- 2. [Community] Support quality planning and zoning that encourages social and community relationships, healthy lifestyles, and public safety.
- [Private Property] Provide for continuation and improvement of approved uses.
- [Regulatory Tools] Maintain zoning that allows development in appropriate areas and preserves lands for watershed, recreation, scenic value, and wildlife.
- [Environment] Collaborate with public and private entities to support clean watersheds, biodiversity, healthy forests, and resilient landscapes.
- [Aesthetics] Encourage the aesthetic beauty of the man-made environment and the protection of the scenic natural environment.

## ENVIRONMENT

Vision: Serve as stewards to support healthy forests, connected ecosystems, habitats, and waterways for current and future generations. Promote programs that improve watersheds, air quality, vegetation, wildlife ecosystems, and scenic quality.

- [System] Protect and steward open lands and natural resources (air, water, wildlife, fisheries, climate, trail systems, wetlands, dark skies, soundscape, soils, open space, native vegetation).
- 2. [Open Space] Promote the acquisition of natural and undeveloped lands for conservation.
- 3. [Water] Protect, maintain, and improve watershed health, water supply, and water quality.
- 4. [Air] Protect and improve air quality for protection of public health, environmental health, and scenic visibility.
- [Native Species] Maintain healthy populations of native species and support early detection and rapid response to eliminate invasive species and noxious weeds.
- 6. [Wildlife] Preserve sensitive habitats and migration areas for wildlife.
- 7. [Property] Respect approved private property uses and promote their stewardship of the environment.
- 8. [Wildfire] Support wildfire safety and defensible space.

## RECREATION

Vision: Continue to support high-quality recreation opportunities for a diverse public and sustainable facility maintenance.

- 1. [System] Maintain consistent coordination with neighboring jurisdictions and agencies to support a connected recreation system.
- [Responsible] Support programs that promote responsible recreation and personal responsibility for public safety and protection of the Canyon's natural resources.
- 3. [Accessible] Enhance and preserve access to public lands.
- 4. [Diversity] Maintain a spectrum of diverse recreation opportunities for participants at all levels, abilities, and interests.
- [Sustainable] Recognize the need to accommodate different user groups in ways that minimizes user conflict and landscape damage.
- [Facility] Provide support through grants and or other funding revenues for recreation facility maintenance, trailheads, and restrooms.
- 7. [Year-Round] Consider year-round needs in recreation planning and facility maintenance.

# TRANSPORTATION

Vision: Support and prioritize projects for transit, bicycles, pedestrians, and vehicles to reduce congestion, improve air quality, enhance safety, and facilitate connectivity to the regional transportation system.

- [Collaboration] Collaborate in long-term transportation planning with UDOT, UTA, USFS, Salt Lake City Public Utilities, private property owners, local jurisdictions (Salt Lake and Summit counties) and other involved agencies.
- [Choice] Create convenient, safe, timely, sustainable, and efficient options for transportation by a variety of modes that satisfy multiple needs.
- [Character] Promote context appropriate transportation modes and projects that are appropriate for the each canyon's unique context.
- [Accessibility] Provide well-maintained and accessible transportation infrastructure including roads, parking facilities, pathways, and walkways.
- 5. [Transit Stops] Create canyon ADA-compliant transit stops with restroom facilities, and bus pullouts for user comfort and aesthetics.

## ECONOMY

Vision: Sustain the Wasatch Canyons as a world-class recreation destination that provides significant economic benefit to the region. Enable businesses to continue providing goods and services without compromising the environment.

- [Context Appropriate] Attract and retain canyon businesses that are economically and environmentally sustainable.
- 2. [Tourism] Recognize that tourism is a fundamental component of the Utah economy and is dependent on healthy and vast natural and scenic resources.
- [Stewardship] Encourage businesses to be environmental stewards through practices and education outreach to customers and visitors.
- [Branding] Promote signage and branding that highlights the history and heritage of the Canyons, and promotes appreciation and stewardship.

## **Phase 3: Choices**

- Vision: Topic
  - Principle: Applicable planning principles and values.
    - Choices:
      - a) Choices A.
        - a) Pros/Cons
      - b) Choice B.
      - c) Choices C.
