Salt Lake County Animal Services is the largest no-kill municipal shelter in Utah. We offer a variety of life saving programming to the community to help maintain a healthy pet population. Each year our Outreach team attends over 200 community events and hosts Humane Education presentations to schools in Salt Lake County.

SPAYghetti & No Balls, helps pay for the spay/neuter surgeries of 700+ owned animals each year that come from low-income homes. By sterilizing a pet, we prevent hundreds of homeless pets from entering the shelter each year.

Join us for The Best Humpday Party of the Year and help sponsor life- saving programming. As a business, you will receive recognition throughout the year for your generosity and support of pets in the community.

Sponsor benefits are on the backside of this page. For additional information contact our Development Coordinator, Jami Johanson at [jjohanson@slco.org](mailto:jjohanson@slco.org) or call 385-468-6042.

#### Spay/Neuter Facts:

- An average cat has 1-8 kittens per litter and 2-3 litters per year. During her life, a female cat could have more than 100 kittens.
- A female dog can have up to three litters in a year with an average litter size of seven puppies. One female and her babies can create 67,000 puppies in six years.
- 10,000 humans are born every day in the U.S. and each day 70,000 puppies and kittens are born. As long as these birth rates exist there will never be enough homes for all the animals.
- Spaying or neutering not only helps the animal live a longer, happier and healthier life, minimizes behavior problems but it also helps the community.
