Description and justification: (Attach additional pages as needed.)*

This adjustment is to unrestrict and budget a portion of funds set aside for the Pay For Success "Home Not Jail" (HNJ) and "Recovery, Engagement, Assessment, Career, and Housing" (REACH) programs. This will allow the County to make payment for program participants who have met program success criteria. The County has \$11,500,000 set aside to fund the HNJ and REACH programs in Restricted Fund Balance Account "311165 RFB-Pay for Success", and Cash Account "103060 Cash-TrusteeHeld-PayforSuccess".

⁽¹⁾ If the request is for a grant, include the dates the grant will expire and what obligations are required of the County after the grant expires.

THE UNIVERSITY OF UTAH

Memo

To:

Pay for Success HNJ Executive Committee

From:

Utah Criminal Justice Center

Date:

8/17/2018

Re:

Graduation to Permanent Housing Metric

Dear Pay for Success HNJ Executive Committee Members:

The Utah Criminal Justice Center (UCJC) has analyzed the number of HNJ cases where the client graduated to permanent housing. A few points about the metric should be noted:

- The metric provides a snapshot of the number of cases in which the client, 12 months after moving into a placement, had graduated to permanent housing and was no longer receiving services, or a rental subsidy, through HNJ.
- The 12-month measurement mark is a relatively arbitrary point in time; clients could graduate to permanent housing before reaching 12 months or could take longer than 12 months. Therefore, clients who moved into subsidized housing over 12 months ago, but who have not yet graduated to permanent housing, could still qualify at a later measurement point.
- Clients can graduate to circumstances other than permanent housing. Those options include: moving to the emergency shelter, living on the street, moving into a hotel, disappearing, or temporarily living with family or friends. These graduations are not a success as defined by the graduation to permanent housing metric.
- Once a client has a program exit status, that status is permanent with respect to the HNJ program; thus, if a person graduates to permanent housing, but then later loses that placement, the fact that he or she (at least temporarily) held a permanent housing placement makes the person count as a program success (i.e., a graduate to permanent housing) on this metric. However, if they returned to shelter services, the number of days in shelter would count against the housing stability metric (assessed during annual reports).

The performance metric outcome below provides the number of clients who have 1) had 12 months elapse since moving into a subsidized housing placement, and 2) graduated from the

THE UNIVERSITY OF UTAH

subsidized placement before 8/1/2018. Cases graduating after this date will be reported in the next report period six months from now.

Eight HNJ cases have had 12 months elapse since moving into a subsidized housing placement. Of these, three (37.5%) have graduated from the HNJ program. All three graduated to permanent housing. Zero cases were discharged into homelessness or otherwise failed out of the HNJ program. Though five of eight eligible cases have not yet graduated to permanent housing, the lack of a cap (or upper limit) on the timeframe to graduation dictates that these five cases could still graduate to permanent housing at a later date (as long as that date is within the project's observation window).

The graduation to permanent housing metric is paid at \$2,300 per individual meeting the metric. Three HNJ clients met the metric during this first year of observation, resulting in a total success payment calculation of \$6,900.

The next analysis of the graduation to permanent housing metric will occur in month 24 of the HNJ project.

THE UNIVERSITY OF UTAH

Memo

To: Pay for Success REACH Executive Committee

From: Utah Criminal Justice Center

Date: 8/15/2018

Re: Treatment Engagement Metric

Dear Pay for Success REACH Executive Committee Members:

The Utah Criminal Justice Center (UCJC) has completed the process of analyzing treatment encounters between First Step House (FSH) staff and its REACH clients in order to determine the number of clients reaching 200 hours of criminogenic related services in the first six months of treatment post enrollment. For treatment encounters to count toward the 200 hour criterion, encounters had to address at least one of the following eight criminogenic risk factors: antisocial behavior, antisocial personality, antisocial cognition, antisocial peers, family, school and work, leisure and recreation, or substance abuse.

Signed case notes from each REACH treatment encounter were examined to determine whether the encounters addressed at least one of the eight needs. Assessments and other encounters that did not specifically address at least one of the criminogenic needs (as documented in the encounter notes) did not count toward meeting the metric. In all, 9,052 encounters were evaluated. Along with documenting the needs addressed, REACH staff also recorded the duration of the encounters. The metric was calculated by summing durations across all encounters that addressed at least one criminogenic need.

In the first year of REACH, 86 cases were randomized into treatment; 28 of these had six months of observation post enrollment. Of these 28 cases, 11 (or 39.3%) reached 200 hours of criminogenic-specific treatment within six months of REACH enrollment.¹

The treatment engagement metric is paid at \$5,800 per individual meeting the metric. Eleven REACH clients met the metric during this first year of observation, resulting in a total success

¹ Only cases that reached six months of post enrollment treatment are included in this analysis. Any cases that met the 200 hour mark, but that did not reach six months post enrollment before the observation window closed for this measurement period, will be counted in the next report six months from now.

THE UNIVERSITY OF UTAH

payment calculation of \$63,800.

The next analysis of the treatment engagement metric will occur in month 18 of the REACH project.

Kort Prince, PhD: Interim Director - Utah Criminal Justice Center
