#### Description and Justification:

S Redwood Health Bldg Sound Vibrations Project: South Redwood Health was constructed and occupied over a year ago. Since occupancy, employees have noticed a vibration and noise from the HVAC system which impacts their ability to complete their work. We have found unforeseen conditions with the HVAC units on the roof. We are working with the contractor and design team to resolve these issues. We are requesting a budget transfer from a variety of fund 450 projects, which have been completed with under expend, to establish a new project to handle the work being done to resolve this issue. We are also looking at additional energy saving concepts as budget and opportunities allow.
