2020 CHALLENGES TO CONSIDER

- Demand for marriage ceremonies exceeds current staffing and ceremony room availability
- Ongoing demand for services in Marriage/Passport Division
- Implementation of new voting system equipment in 2021
- Expected population growth of registered voters
- Election Division FTEs needed to supervise larger temp staff due to voter population increase
- Presidential Primary will take number of elections in 2020 from 2 to 3
- VISTA (Statewide Voter Registration Database) will be obsolete at end of 2020
 - ❑ State may rewrite a new program
 - ❑ State may purchase off-the-shelf program

INCREASED NUMBER OF ACTIVE REGISTERED VOTERS (2014 - September 30, 2019)

Challenges Hiring and Retaining Employees in Current Labor Market

- Recently posted two Election Coordinator positions - Only 5 applicants
- Posted temp notices for 2019 General Election - (Need 12 and have only found 7)
- It is difficult to fill positions, especially for temporary short-term
- Sometimes interviews are conducted, but applicants have accepted other positions before ours are available
- Employees in entry-level positions leave for other opportunities outside and inside the County.
