Which Boards would you like to apply for?

Salt Lake County Planning Commission: Submitted

Referred by:

Qualifications

Please tell us about yourself.

I am a current licensed REALTOR living in South Jordan. I love my job, and take pride in helping people find places to call home. I am married with two children, and spend most of my free time chauffeuring kids to soccer, dance, and golf. I also spend a lot of time camping, hiking, and practicing yoga.

Why are you interested in serving on a board or commission?

I am proud to say I as a mother that I want to be involved in the community I am raising my children in. Upon COVID I was able to spend my volunteer time at their school, assisting in several of their programs. I am now looking for other ways to get involved, and most especially to use my unique career background in a meaningful way for my community.

What education, work experience, or volunteer experience do you have that applies to the board you are applying for?

Former SLC employee of Housing & Neighborhood Development, overseeing CDBG, HOME, HOPWA, ESG grants, and managed SLC's Senior Centers program. Currently a licensed REALTOR, member of the Salt Lake Board of REALTORS and National Association of REALTORS. Also experienced in product development, online shopping platforms, and product fulfillment.

What unique perspectives could you bring to the board?

I have a varied background in few different careers. I spent 9 years working for Salt Lake County's Housing & Neighborhood Development where I mostly managed federal grants from HUD. It was an invaluable experience to see the programming that goes into sustainable, affordable and vibrant communities. I also carry this knowledge into my career in real estate, where I aim to help others find meaningful spaces to create their own safe spaces. In addition to that, I have spent a few years building and managing online platforms for product development and shipment, as well as a few years working for a large telecommunications business platform. I mostly crafted my work around the phase of life I found myself to be in, but it has led to a background knowledge of both civil and private sectors.
