### Why are you interested in serving on a board or commission?

I'm interested in public service, and I believe a board would be an interesting way to become better acquainted with public service in a small way. I hope to use some of my skills from the private sector to assist the community.

**What education, work experience, or volunteer experience do you have that applies to the board you are applying for?**

My prior board work helps me understand how to guide decisions based on specific type of input, particularly important when you don't have any day to day responsibilities, but can only give input externally. My personal time is drawn more towards outdoors and county parks & rec services giving me experience with the facilities. While city planning is not something I have experience with, I'm very interested in the process and would like to have more understanding and input as we consider how to make our state and county the best it can be.

**What unique perspectives could you bring to the board?**

--> LOCATIONS: I've lived in 5 different states and 3 counties. I travel extensively and have seen best practices from around the world I can bring to our community. --> PROFESSIONAL: See the "Tell us about yourself" section. I bring extensive leadership experience from the private sector. I'm passionate about making processes more efficient.
