INFECTION SNAPSHOT

Infection Snapshot is for Salt Lake County only. Data presented follows best practices in reporting of epidemiology and present the number from the previous day.

0.025%	**Case Rate Increase** The Case Rate Increase provides pandemic responders an understanding the growth of spread in a community. The higher the number, the greater the spread.	**DECREASING**
7.71%	**Positivity Rate** This number is determined by looking at the number of COVID-19 tests with a positive result out of the total number of tests performed over a seven-day period. A higher positive rate indicates more of the population being tested has the virus.	**INCREASING**
