### Topic/Discussion Title:

A Resolution of the Salt Lake County Council Approving and Authorizing the Mayor to Grant a Perpetual Easement to Mt. Olympus Improvement District

**Description:** Salt Lake County owns multiple parcels of real property located at approximately 4191 South 900 East and 4189 South 900 East, in Millcreek, Utah, identified as Parcel Nos. 22-05-201-005, 22-05-128-020, 22-05-128-036, 22-05-128-032, 22-05-128-034, and 16-32-378-011, also known as Hillview Basin Mt. Olympus Improvement District (the “District”) owns and operates a major sewer trunk line and other appurtenances under the County Property. The County granted an easement to the District’s predecessor in interest to install and maintain the Sewer Line, but the Prior Easement was previously terminated, and a new easement was apparently never recorded. Based upon the Prior Easement, the District’s predecessor in interest installed and has maintained the Sewer Line in the County Property. To clean up the record and acknowledge the existence of the Sewer Line, the District and the County would like to record a perpetual easement to allow for ongoing operation, repair and maintenance of the Sewer Line. Because the Sewer Line was installed pursuant to the Prior Easement, no consideration is necessary for the new perpetual easement, which is intended to officially document on the record the location of the Sewer Line and set forth the rights and obligations of the parties. The County and the District have prepared a Sewer Line Easement Agreement attached hereto as Exhibit 1, wherein the County grants a perpetual sewer line easement across and under the County Property to the District.
